

**AMENDMENT TO THE SPECIFICATION**

*Please further amend the paragraph beginning at Page 4, Line 22 (as-published Paragraph [0028]) to read as follows:*

Figure 1 shows a lateral view of an x-ray diffractometer, according to the present invention. The equipment includes a base (1), that can be equipped with two wheels (2) or other means for transportation and positioning and can also contain an electric generator capable of generating the energy required for the use, a tank of cooling liquid for the x-ray source and the electric components for positioning the movable parts and collecting data from the measurement equipment and also to process these data.
